Modernität an erster Stelle

Bei LED Line streben wir ständig danach, unsere Produkte zu verbessern, um den wachsenden Anforderungen des Marktes gerecht zu werden. Die neuen Lösungen, die wir einführen, sind das Ergebnis intensiver Forschung und Entwicklung, mit einem Fokus auf Innovation und Optimierung. Dadurch sind unsere Produkte nicht nur effizienter, sondern zeichnen sich auch durch außergewöhnliche LWINKELbigkeit und Vielseitigkeit in der Anwendung aus. Unsere Neuheiten entsprechen den aktuellen Bedürfnissen unserer Kunden und bieten höchste Qualität, Zuverlässigkeit und ein modernes Design, das sich perfekt in unterschiedliche Beleuchtungsprojekte einfügt.

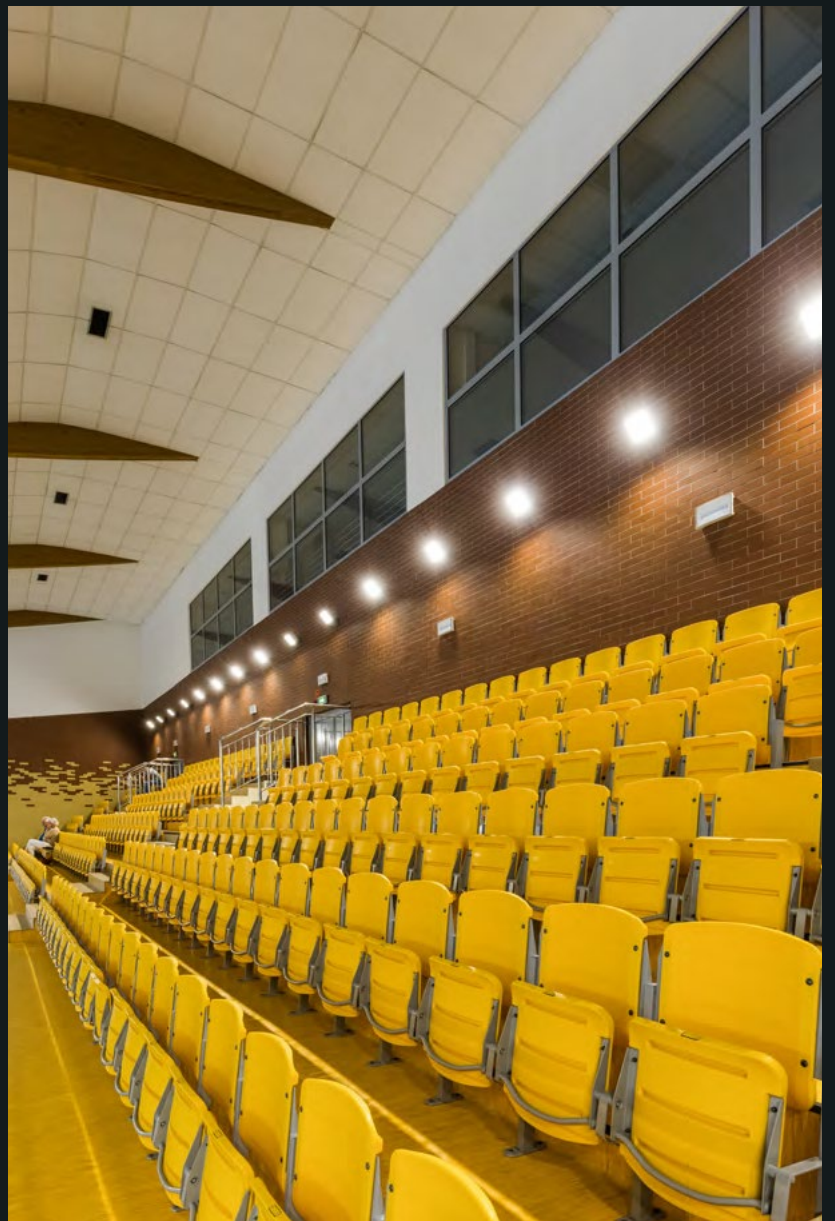

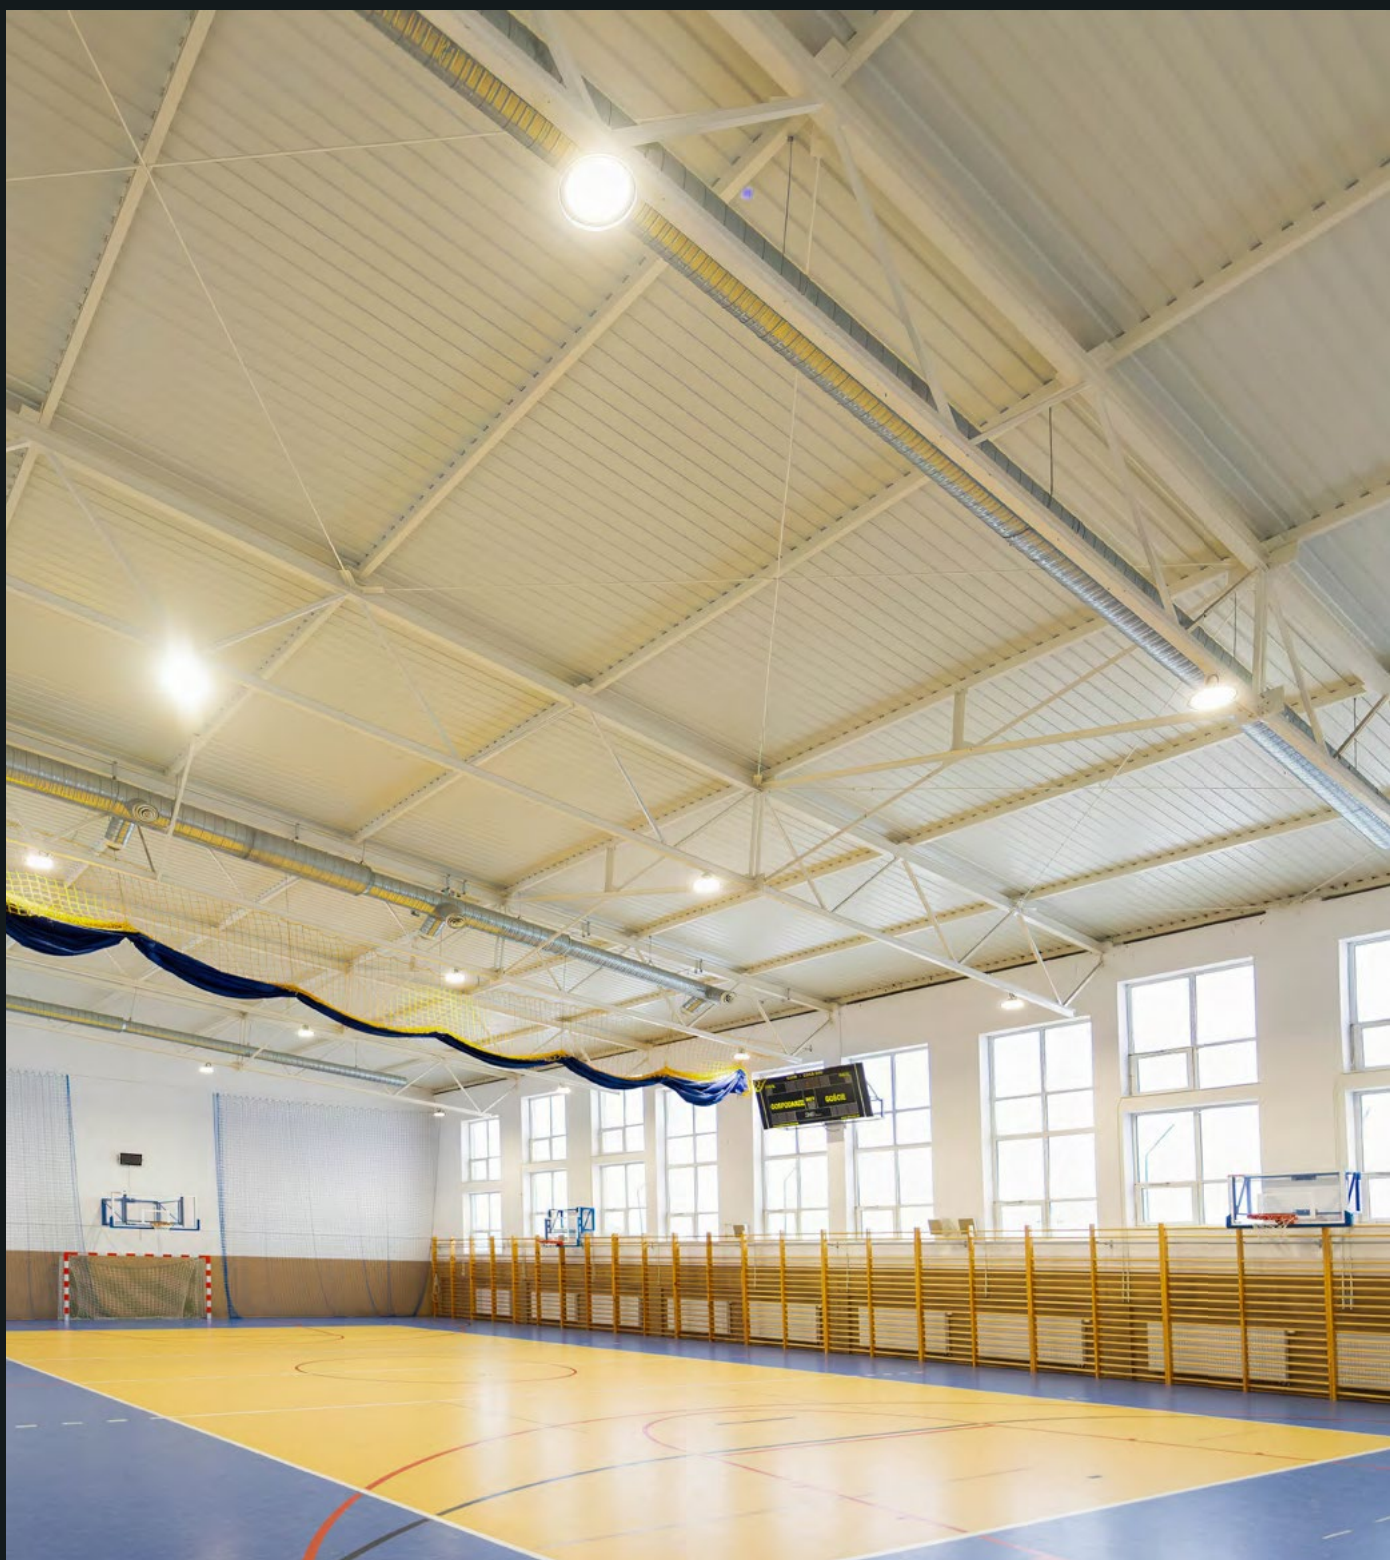

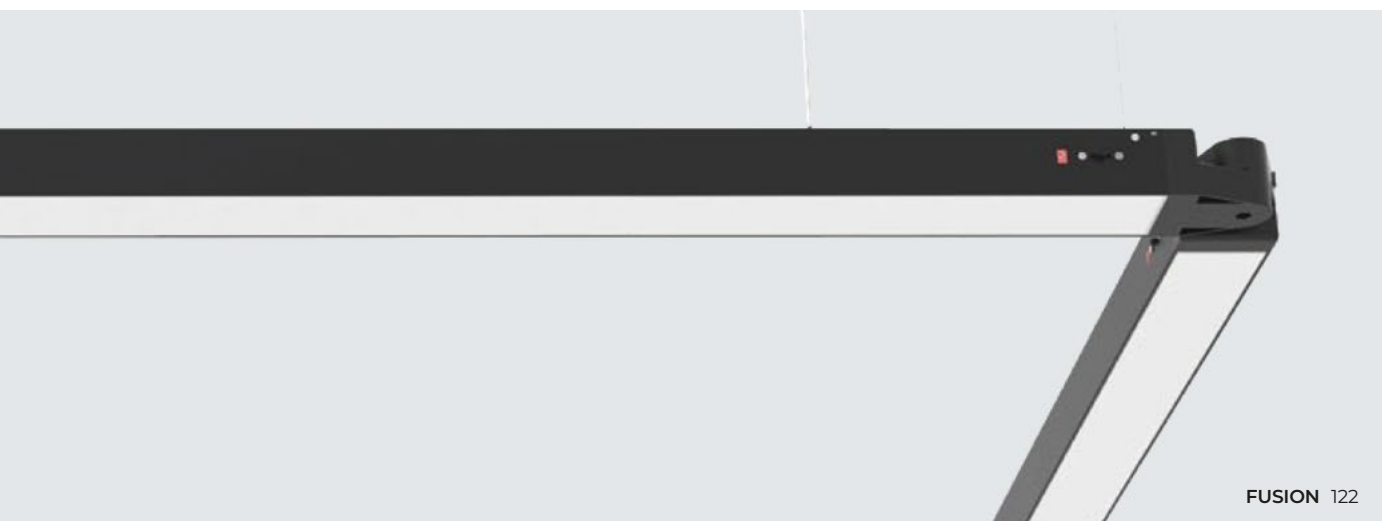

Die Leuchten von LED Line sind mit Blick auf Zuverlässigkeit und hohe Leistung konzipiert. Jede Leuchte durchläuft detaillierte Labortests, um die volle Übereinstimmung mit den angegebenen technischen Parametern sicherzustellen. Besonderes Augenmerk wird auf die Genauigkeit der Lichtstrommessung gelegt, die als der gesamte von der Leuchte emittierte Lichtstrom gemessen wird. Darüber hinaus wird der nutzbare Lichtstrom berücksichtigt, der für die Beleuchtungseffizienz entscheidend ist. Wenn Sie sich für LED Line Leuchten entscheiden, können Sie sicher sein, dass jedes Produkt strengen Tests unterzogen wurde und die höchsten Qualitätsstandards erfüllt.

Qualität ohne Kompromisse

Das Hauptziel von LED Line LAB ist es, Produkte zu entwickeln und zu prüfen, damit sie alle, auch die strengsten Richtlinien und Standards erfüllen, die der aktuelle Standard des Unternehmens sind. Die große Sorgfalt, mit der wir die Produktqualität behandeln, also Fehlerfreiheit, LWINKEBigkeit und Sicherheit, führt zu einer Übereinstimmungsrate von 99,54%, d.h. unsere Reklamationsquote liegt nur bei 0,46%.

Qualitätstests werden kontinuierlich durchgeführt und betreffen jede Produktcharge – die Bedingung für die Freigabe zum Verkauf ist ein positives und vollständiges Qualitätstestergebnis. So sind wir sicher, dass unsere Kunden Produkte erhalten, die weder beim Verkauf, der Projektumsetzung noch in der Nutzung Probleme bereiten.

Auf der Suche nach optimalen Lösungen

Die Aufgabe der F&E-Abteilung besteht darin, neue Produkte gemäß den Erwartungen und Bedürfnissen des Marktes zu entwickeln. Ein vollständiger Prozess wird durchgeführt – von der Konzeption über die ProtoTYPentwicklung bis hin zur Produktion und Umsetzung. Dank der durchgeführten Forschung wissen wir, welche Produkte eingeführt werden müssen, um das Angebot der LED Line so umfassend und optimiert wie möglich zu gestalten und damit eine höhere Kapitalrendite zu erzielen.

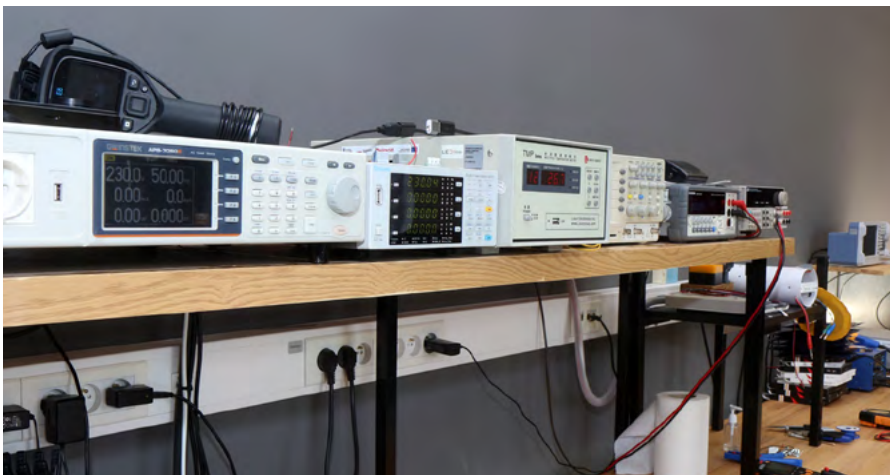

Ausstattung auf höchstem Niveau

Die Investitionen in das LED Line LAB ermöglichen es uns, höchste Qualitätsparameter zu erreichen, was besonders von unseren Geschäftspartnern geschätzt wird.

**Das Labor wurde mit hochmodernen
Geräten ausgestattet, wie z.B.**

- Photometrischer Dunkelraum ausgestattet mit
- Teststand für Licht- und Strahlungsparameter
- Prüfstand für elektromagnetische Verträglichkeit (EMC)
- Prüfstand für Alterungstests
- Prüfstand für die Messung harmonischer Emissionen
- Thermalprüfstand mit 16-Kanal-Ausrüstung
- Prüfstand für SPANNUNGSverluste von LED-Streifen
- Prüfstand für dimmbare Lichtquellen

Fachkundige Unterstützung für Planer

Dank der Möglichkeit, autoritative IES- und EULUMDAT-Dateien zu erstellen, können Planer, die mit uns arbeiten, Projekte mit hoher Präzision erstellen, was angesichts der Marktanforderungen, insbesondere im Investitionsmarkt, besonders wertvoll ist. Wir generieren hochwertige photometrische Dateien, die bei Import in Dialux oder Relux-Programme die Auswahl der richtigen Leuchten für jedes Projekt ermöglichen.

Bildung, die die Zukunft des Marktes formt

„Der LED-Markt wächst schnell und wird somit anspruchsvoller. Daher ist es unsere Mission, nicht nur die effektivsten Produkte und Lösungen anzubieten, sondern auch kontinuierlich Wissen und Erfahrungen zu teilen. Bildung steigert die Erwartungen des Marktes, und wir sind bereit, diesen zu begegnen. Wir bieten Schulungen für unsere strategischen Geschäftspartner, Händler, Kunden und Mitarbeiter an.“
